

Elsam IV Dental / Treatment Wet Lift Table

WALL MOUNT DESIGN ADVANTAGES:

- The advantage of mounting the table to the wall, is that there is nothing on the floor, under the table.
- This is important because it makes it much easier to clean the floor under the table-just raise the table and mop under it
- Also, there is nothing to get in the way of legs, feet, or a chair when doing sit-down procedures.
- A table attached to the wall cannot tip over when struggling with a powerful dog.
- Peninsula design allows access to both sides of the table so that the doctor and technician can face the animal and each other.

OTHER FEATURES INCLUDE:

- **Hydraulic drive** for dependable, fast, smooth and quiet operation.
- **Easy installation**- all hardware is included. Attaches to studs in wall or to concrete.
- **100 % stainless steel construction**
- *Available* with digital weigh scale usable in all positions. Resolution 0.1 lbs.
- Plumbing can be *customized* to the individual needs of the installation.
